CONSULTANCY SERVICES – FIRMS SELECTION

CONSULTANCY SERVICES TO CONDUCT TOURISTIC ASSET INVENTORY AND MAPPING ANALYSIS FOR SELECTED AFRICAN COUNTRIES

PROCUREMENT NUMBER: 70/NPCA/NRG/TOURISM/QCBS/2019

INTRODUCTION

Tourism is a dynamic sector, which has been dubbed a “sunrise” sector that can always rapidly switch on for inclusive socio-economic growth. It also cuts across societal challenges and upheavals, as long as visitors’ and tourists’ safety are guaranteed. The African Union (AU) Agenda 2063 and the 2030 United Nations (UN) Agenda for Sustainable Development, took special recognition of tourism as one of the engines of inclusive growth and development, including positive impacts on job creation, environmental preservation, and effective resources management.

Africa boasts a rich and diverse cultural heritage, as well as natural assets, in terms of landscapes, unique flora and fauna. Africa remains one of the fastest-growing regions for the travel and tourism sector globally. Some of the recent socio-economic impact of tourism in Africa include, the employment sector, in which tourism supports about 9 million jobs, which is about 3% of total employment in the continent. This is equivalent to 1 in 11 jobs in the continent’s economy. Africa’s aviation industry alone supports about 7 million jobs and contributes $80bn to Gross Domestic Product (GDP) on the continent.

OBJECTIVES

If Africa is to participate well in the global ‘pleasure periphery’, it must look at ways in which the tourism sector can be promoted through the regions. There is therefore a need to 1.) Carefully evaluate the region’s use of tourism in its development strategy, and 2.) Set out broad parameters on future action, so as to enhance the economic and social benefits stemming from tourism development.

It is against this background that the African Union Ministerial Sub-Committee on Tourism have identified touristic asset inventory and mapping analysis in the region. The Sub-Committee recognizes the contributions of tourism to economy of scale; regional integration; and shared development costs, especially in infrastructure and marketing.

Though, there are several strategies in the continent to promote tourism. However, these strategies do not take into account the unique nature of the continents rich heritage and assets. A paradigm shift is required to appreciate community-based tourism projects; marketing of tourism products (such as adventure tourism, eco-tourism and cultural tourism).
A consulting firm will be required to carry out touristic asset inventory and mapping analysis, including cultural heritage in five regional blocs of the continent. Regional Economic Communities (RECs). The countries and RECs include:
