“Looking at ICTs, agriculture and climate change in Africa through the eyes of women and the youth”

## Enter the contest to win a prize trophy of EUR 800 and join the NEPAD's 10th Anniversary!

The New Partnership for Africa's Development ([NEPAD](#)) Agency and the Technical Centre for Agricultural and Rural Cooperation ACP-EU ([CTA](#)) have joined forces in celebrating NEPAD's 10<sup>th</sup> Anniversary. It is within this context of reflecting over the advancement of the African development agenda, that the two institutions are jointly organising a photo competition under the theme; “Looking at ICTs, agriculture, entrepreneurship and climate change in Africa through the eyes of women and the youth”. This contest also falls in the framework of CTA activities on Youth, Women and ICTs.

The Awards recognise excellence across a number of categories centred on the attraction, retention and progression of women's and African talents to further the African development agenda.

In line with these objectives, CTA and the NEPAD Agency are searching for enthusiastic photographers of African nationality, who want to demonstrate their abilities by examining the issues of Africa's development in the areas of:

- Information Communication Technologies (ICTs);
- Agriculture and Food Security and;
- Climate Change

The winning photographs will be on display at a NEPAD's 10<sup>th</sup> Anniversary meeting to be held in October 2011 in Addis Ababa, Ethiopia. The winners of each category will be awarded at the opening ceremony of that meeting.

The photo contest is open to amateur and professional photographers of at least 18 years who are nationals of African countries. CTA and NEPAD staff and their immediate family members are excluded from the contest.

We are looking for compelling photographs that will capture the story of Africa's development in the following 2 categories:

### **Category 01 – Youth/women, ICTs and entrepreneurship**

Photos in Africa that depict youth or women making use of information communication technologies (ICTs) in entrepreneurial contexts in the agricultural sector.

### **Category 02 – Youth/Women and climate change**

Photos in Africa that depict youth or women making use of Information communication technologies (ICTs) in the context of climate change adaptation / mitigation and risk management.
